

Dear Member

The speed at which COVID-19 has spread around the world has been overwhelming. It caught governments around the world off guard as they tried to understand the severity of the virus and figure out how to slow down the spread. Most countries had to limit human interaction by means of a national lockdown. This essentially meant bringing entire economies to a standstill, leading to widespread economic devastation.

[Click here](#) to read more about how this has affected investment growth.

Keep safe and please keep applying all the COVID-19 protocols!
